Ahead Of The Curve...

SMART LUGGAGE®

Heys combines global reach with a local flair...nimble enough to bring new concepts to market quickly, yet large enough to achieve it on a global scale.

Despite success spanning over three decades, Heys has retained its 'start-up' mentality, resulting in the introduction of remarkable industry milestones such as the World's Lightest Luggage and the pioneering of Smart Luggage®, Eco-Friendly Luggage and the Smart Access® Opening System.

With over 50 global patents, Heys remains at the forefront, driven by its agility and innovation, while leading the market with popular fashion trends, cementing its position as a trendsetter.
