PRODUCT FEATURES

combines warmth, breathability, and flexibility with seamless construction, 3D compression, and odor resistance, perfect for outdoor activities in cold conditions.

- Balanced compression for enhanced performance
- Insulating and breathable fabric
- Made of 32% Polyester, 60% Polyamide, and 8% Elastane, offers superior warmth, quick-drying, and excellent elasticity
- Odor-resistant and antibacterial for lasting freshness
- The Seamless Integrated Weaving technology offers a seamless construction for a perfect fit
- Featuring a round neck design, this garment blocks cold wind and ensures warmth and comfort, offering protection against severe cold, wind, and snow
- Thigh&Arm 3D Pressure Support provides optimal muscle compression and support during exercise, reducing energy consumption and enhancing athletic performance
- Quick-drying polyester fabric for a comfortable experience
- Gradient compression reduces muscle vibration for better performance
- Versatile and ideal for skiing, running, hiking, cycling, mountain climbing, and daily

SKI SOCKS

COMPRESSION MERINO WOOL

SERIES

SPECIFICATIONS

COLOR: 4 colors

SIZE: S M L

TECHNOLOGY

· Made from composite fiber material, these socks provide excellent heat retention and breathability. Featuring gradient compression technology, pressure gradually decreases from the arch to the calf, promoting blood circulation to relieve leg fatigue. With additional shock-absorbing layers, the socks enhance leg protection by reducing impact, allowing you to stay focused on skiing, running, and other outdoor activities, ultimately enhancing your performance!
